JUNE LAKE LOOP

the Land Nature Endowed for RECREATION

A necklace of four sparkling blue lakes—June, Gull, Silver and Grant—strung together by clear streams in a setting of rugged Alpine Mountains. This is the June Lake Loop.

Here in the heart of California's Eastern Sierra is a Vacationland where each of the four seasons offer unique attractions for year-round recreation. Spring is a call to the angler when lakes and streams, released from winter's icy bonds, teem with hungry trout. Summer's charm is its long, warm days and the variety of activities for family fun—fishing, camping, swimming, horseback riding, pack trips, hiking, and water skiing. Fall — the season of quiet enchantment, when nature applies her paintbrush to hillside and valley with a blaze of autumn color, finds hunting and fishing at their best. Winter — its deep blanket of snow a lure to the skier and the smooth expanse of frozen lakes an invitation to the skater.

In the Alpine Village of June Lake and throughout the Loop, accommodations of all types are available. There are, to suit your budget or preference, hotel, motel, cottage, trailer park, or camping sites — all located near lakes or streams. For your convenience, there is a modern shopping center with complete facilities and services for every vacation need.

Recreation in the June Lake Loop is facilitated by the boat landings on all four lakes, the pack station near Silver Lake for back-country trips or horseback rides, and the chair lift on June Mountain for skiing or scenic rides.

Recreation for All in the June Lake Loop

FISHING

An angler's heaven where tackle busters lurking in the depths of lakes and streams add zest to fishing. Catches from pan to trophy size reward the enthusiast from the Spring opening—when lakes recently emerged from winter's icy embrace abound with hungry trout – through the crisp Indian Summer days of Fall that find fishing at its peak. The encircling Loop highway takes you to all of the four lakes: June, Gull, Silver and Grant. Boats, motors and tackle are available, also launching and dock facilities for private boats.

In the primitive back-country, accessible from the Loop by well-marked trails, are many lakes and streams—the home of native Brook and Golden Trout.

HUNTING

A land of mountains, forests and lakes —the natural abode of wild game—June Lake Loop is the center of hunting activity in this area. Wily bucks roam the hillsides, migratory waterfowl feed and rest on the lakes as they wend their way Southward. Here Nature offers her challenge to the hunter in search of game.

HORSEBACK RIDING

Horses are available at the Pack Station, whether you prefer an hour's ride, a day's trip to one of the higher lakes, or a pack trip through the primitive area of the Sierras. Trails are well-marked and maintained by the U.S. Forest Service. For the tiny tots, entertainment is provided by a pony ring.

SKIING

The June Mountain Ski Area offers superb skiing over packed or unpacked powder snow. A high-capacity double-chair lift services the "Pace" with its challenging runs and carries the skier to the 9000 ft. level. In the Bowl at this elevation for slopes tailored to accommodate beginners, intermediates and experts, are two lifts—a T-Bar and Poma. On the skyline is the Grand Chalet Schweizerhof with its breathtaking panorama of valleys, lakes and mountains. The sun deck invites you to relax or dine in the midst of this magnificent scenery. The Chalet has complete dining, warming, and first aid facilities. The Ski School is conducted by certified instructors.

SWIMMING

Swim in the crystal clear invigorating waters of June Lake The gently graduating depths of this swimming area are marked off for your safety by buoys. The sandy beach is an invitation to bask and relax in unfiltered sunshine while your children splash and wade along the shore.

PHOTOGRAPHY AND ART

The majestic beauty of the rugged Alpine peaks, the serenity of an unruffled lake reflecting the surrounding landscape, the riotous color of quaking aspen in the Fall, and the grotesque shapes of snow-laden trees are just a few of the scenic splendors that will give you many hours of pleasure with camera or easel.

JUNE LAKE LOOP

Recreation for All

HIKING

Well-marked trails threading their way from lake to lake lure you on as the grandeur of the scenery unfolds before your eyes. The shy beauty of Alpine flowers, a glimpse of a browsing deer, the brilliant flash of a bird on the wing, add to the pleasure of your hike.

CAMPING

Throughout the Loop are Inyo National Forest campgrounds where you may enjoy outdoor living beside lake or stream. These campsites are located at June, Gull, and Silver Lakes, also along Rush Creek. In addition there are private parks with modern facilities for camping or trailer living.

WATER SKIING

Nearby Mono Lake with its 80 square miles of buoyant mineral water is a skier's paradise. An immense body of water, without fish life, where skiing and boating reign supreme. The Mono Marina provides launching and dockage facilities, shaded picnic areas and camp grounds.

SCENIC TRIPS

Enjoy a family outing – Take sightseeing trips to the many natural wonders to be seen around this area. These include: The Devil's Post Pile National Monument, Rainbow Falls, the Earthquake Fault, Crater Lakes, Hot Sulphur Springs, the Wilson Cone, Obsidian Glass Flow, and Mono Craters. Visit the Hot Creek State Hatchery and see how fish are raised to catchable size. Pack a picnic lunch and make the short trip to Bodie and Aurora – the historic Ghost Towns and mining area.

YOUTH PROGRAM

Teenagers, you are invited to be a guest and join in the fun of the June Lake Youth Association during your stay in the Loop. All activities are supervised, and a variety of recreation is offered by this young group. Movies, dances, swimming parties, and cook-outs on the beach are all on the program for your summer enjoyment.
